

HOLE STATUS	DEFINITION	TPD-Tournaments: Posting to Scorecard + Golf Genius	POSTING HOLE BY HOLE TO GHIN NOT TPD**	CONSIDERATIONS
COMPLETED	You begin a hole on the tee box and keep hitting the ball until the ball is holed out on the green counting every shot made.	Record the actual number of strokes to complete the hole	Record the actual number of strokes to complete the hole	GHIN software will adjust the score to net double bogey once a handicap index is established
INCOMPLETE	You start a hole by teeing off but do not complete the hole	Enter a "X" followed by the numerical most likely score in both Golf Genius and on the Scorecard **see Most Likely Score below**	Post the "most likely score" ** (see below) OR your net double bogey limit for that hole	Picking up on a hole should only be used to speed up pace of play, during match play when the hole is conceded, or when the score does not matter for the format of the game/tournament.
SKIPPED	You do not start or finish a hole	Enter nothing in Golf Genius or on the Scorecard – LEAVE BLANK. On TPD, this could result in disqualification from the game. For some formats/games skipping a hole is allowed. The TPD/Tournament chair will determine if a skipped hole is allowed	Enter nothing-leave blank. GHIN will record the number of holes you completed and create an 18-hole handicap differential for that round	A hole may be skipped due to construction of a hole, weather, darkness, illness, other emergent situations. You should NOT skip a hole because you don't like the hole or typically score poorly on the hole.
MOST LIKELY SCORE	The number of strokes already taken to reach a position on a hole, plus the number of strokes the player would most likely require completing the hole from that position, plus any penalty strokes incurred during the play of that hole.	Add (1) stroke if on the putting surface less than five feet from the hole Add (2) strokes if over 5 ft but less than 20 feet on or off the putting surface Add (3) or (4) strokes if not on the putting surface and more than 20 ft but less than 50 yards. You should consider the difficulty of the current lie and your typical ability!!
